

Digital Photography (Professional Course)

數碼攝影 (專業課程)

Intro (課程介紹)

The Digital Photography Professional Short Course is an intensive 11 class programme in which our students will learn the art of photography through exploring their cameras, lighting techniques, image retouching and in-depth understanding the industry. At the end of the course our students are expected to showcase their knowledge in art direction, photography and post processing through creating a photo series.

This course is ideal for those who wish to brush up their skills in photography or are beginners in the art.

Curriculum (課程內容)

Photography 101

- History of Photography
- Comparison of different cameras and brands
- Basics of Photography (Amateur, Shutter, ISO, Depth of Field, etc.)
- Learning to use your camera on Manual
- Different fields of Photography

Professional Photography

- Composition in Photography
- Lighting Techniques
- Studio Photography
- Outdoor Photography
- Adobe Photoshop
